PROJECTS

IMAGIFY – AI Image Generation Web App
- Developed a responsive AI-based image generation platform using the MERN stack and ClipDrop API, integrating secure payment and credit systems for efficient image creation and download.

Inventory Management System – Web Application
- Developed a responsive inventory management system dashboard for small businesses using the MERN stack. Implemented CRUD operations to manage products, stock levels, and sales data efficiently.

Todo
- Developed a To-Do App with full CRUD operations and secure user authentication. Implemented role-based access so each user can view and manage only their own tasks.

CLASSPRO - Online Seat Booking (08/2025 - Present)
- Developed ClassPro , a MERN stack web application to check seat availability and manage class enrollments efficiently
